Lamella plugs made of polyethylene for square tubes with welded felt

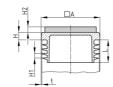

#### **Standard Colours**

• black RAL 9005

#### Materia

- Base body: Polyethylene (PE)
- Slide base: synthetic needle felt (polyester)

#### **Product information**

- Lamellar plugs without specification of the pipe wall thickness are generally suitable for pipe wall thicknesses 1.5 2 mm. Please indicate the pipe wall thickness when ordering.
- The plugs are intended for use in pipes or equivalent bores with free passage corresponding to the clear nominal width of at least shaft length.
- For technical production reasons, a residual sprue may exceed the shaft length.
- Material and design of shafts guaranteed stop against drop out and easy assembling.
- The ribs are circularly closed or interrupted.
- The ribs are not suitable for sealing against fluids.
