

Product Group UG/RE

Rectangular universal glides with PTFE gliding surface, also with self-adhesive version

Standard Colours

- grey

Material

- Base body: rubber / EVAC
- Slide base: Polytetrafluorethylene (PTFE)

Product information

- Very good noise damping through rubber- / EVAC-buffers in the gliding insert.
- Good slippage due to PTFE gliding base surface
- Well suited for textile/carpet floors
- The floor glider is conditionally suitable for smooth floors (unintentional slipping of the chair - to be tested by the user).
- The abrasion of the sliding surface depends on the condition of the floor (surface, soiling of the floor, etc.) and the load on the chair (must be tested by the user, the manufacturer cannot provide any guarantee).
- The suitability of the self-adhesive version "UGSK" for the purpose intended by the user must be tested beforehand by the user (a guarantee of durability cannot be given by the manufacturer).
- UGSK = self-adhesive
