

Product Group EBRUMV

Assembled expander plugs with collar made of PA for round tubes with one hexagon nut (in the front)

Standard Colours

- black

Material

- Base body: Polyamide (PA)
- Nut: zinc-plated steel

Product information

- These two-piece expander bushes with collar have conical chambers for hexagon nuts and screws. Tightening of the thread presses the outer wall of the insert against the inner tube wall (rawle plug effect). This effect requires entire tightening of the thread.
- The bushings are designed for precisely defined wall thicknesses according to the specifications in the table.
- The load capacity data refer to the use in steel tubes.
- Order-related production for individual article sizes! Please ask for minimum quantity.
- SO = the collar of the stopper has a different height and a recess
- * = it cannot be insert lock nuts DIN 985
- Use as threaded plugs in combination with adjustable feet or adjusting screws -> see category "Adjustment and levelling parts" - Expander effect only with fully tightened adjusting screw!
- Tube extensions (1 expander with nut and 1 expander with screw)
- Fixing of wheels and castors
