

Comment on the directive 2011/65/EU, 2015/863/EU and 2017/2102/EU (RoHS 2)

from Walter Bethke GmbH & Co. KG - Kunststoffverarbeitung
Daimlerstraße 26-32, D-41189 Mönchengladbach

Dear customer,

we hereby comment on the Directives 2011/65/EU (RoHS 2), 2015/863/EU (extension RoHS 2) and 2017/2102/EU (amendment RoHS 2).

The products we sell are not electrical or electronic equipment as defined in Article 3 of Directive 2011/65/EU.

We do not knowingly add the substances listed in Directives 2011/65/EU, 2015/863/EU and 2017/2102/EU to our products during processing. Our purchase orders (for plastic granules, other intermediates and commodities) are RoHS compliant. We rely on the accuracy of the information provided by our suppliers.

If a guarantee of the absence of the substances is essential, only an external analysis can ultimately provide certainty of the absence of the listed substances.

If this is the case, please send us your enquiry, specifying the quantities required, so that we can check whether we can make you an offer.

Finally, we would like to point out that we do not know the final application in which our products be used. As the manufacturer of the final product, it is your responsibility to ensure that your final product complies with the relevant applicable standards and that you meet your duty of care.

If you have any questions regarding the RoHS Directive, please do not hesitate to contact Mr Jörn Grabowski (fone: -21, email: jgrabowski@b-plastic.com).

Klaus Bethke (technical managing director)
