

Information note on Regulation (EU) 2025/40 on packaging and packaging waste (PPWR)

from Walter Bethke GmbH & Co. KG – Plastics Processing
Hocksteiner Weg 70, D-41189 Mönchengladbach

Dear Customer,

We are writing to inform you of the current status of our assessment of Regulation (EU) 2025/40 on packaging and packaging waste (Packaging and Packaging Waste Regulation – **PPWR**).

Article 3 of the PPWR defines, amongst other things, packaging, packaging components, manufacturers, producers and the making available on the market. We manufacture packaged products and place them on the market as part of our business activities.

We confirm that we take into account and comply with the requirements of Articles 5 to 12 of the PPWR, from the respective start and application dates specified in the Regulation, insofar as these requirements apply to our packaging. This applies in particular to requirements concerning substances in packaging, recyclability, recycled content, compostable packaging, packaging minimisation, reusable packaging, and labelling and information requirements.

This declaration is based on the information currently available to us from our suppliers.

For packaging falling within the scope of the relevant PPWR requirements, we maintain the necessary technical documentation and the EU Declaration of Conformity in accordance with Articles 15 and 39 of Regulation (EU) 2025/40 for the purposes of any relevant regulatory enquiries.

Klaus Bethke (managing director)
